

SKOLE NUUS

Dallar derde by SA's

Berig en foto: Verskaf

VREDENDAL: Chris-Mari Nel, 'n leerder van Hoërskool Vredendal het die week van 7 tot 10 April aan die ASA SA's in die Paarl deelgeneem. Sy was in die Bolandspan. Kompetisie was sterk, want atlete het van oor die hele land gekom om hier deel te neem en almal was uitgehonger vir kompetisie. Omstandighede was nie ideaal nie, omdat Covid-19 regulasies heeltyd toegepas is en niemand in die stadion toegelaat is om die atlete te ondersteun nie. Almal het buite die hekke in voertuie gesit en die kompetisie stroom.

Nel wat nou nog 13 jaar oud is en O/16 moes deelneem het haar goed van haar taak gekwyd. Sy het 4de geëindig in hamergooi met die afstand van 42.54m. In diskus het sy 'n bronsmedalje gewen met die afstand van 42.08m. Almal is baie trots op haar, dat

sy die Dallars se naam so hoog gehou het. Baie dankie vir die afrigters Adré Husselmann (diskus en gewigstoot) en Karin Thiert (hamergooi) wat soveel ure insit om seker te maak dat die atlete reg is vir elke kompetisie.

CLANWILLIAM: Skaapskeer is vanjaar die nuwe "sportsoort" by Augsburg Landbou-gimnasium en gewilder as ooit. Augsburg spog vanjaar met 'n skaapskeerspan van byna 20 leerders. Die span bestaan uit seuns en dogters. Sommige van hulle is gekwalifiseerde skeerders en ander is wolhanteerders.

Woensdae gons dit in Augsburg se wolskuur, want daar word kliephard geoefen vir die Wes-Kaap Interskole Skaapskeer Kampioenskappe wat op 4 Augustus plaasvind. Leerders kan by Augsburg provinsiale kleure en erekleure verwerf indien hul kwalifiseer vir die Nasionale Skaapskeer Kompetisie in Bloemfontein.

Die landboupersoneel is dankbaar vir Niekie Loubser van BKB wat hul help met die instandhouding van die skeermasjiene. Hul dra hul dank oor aan die WKOD wat die masjiene betyds befonds het. Formele skaapskeer en wolhanteringsopleiding gaan op

30 April in die Wolskuur deur doktor Jasper Cloete van Eisenburg en 'n legende, Plot du Toit, aangebied word. Augsburg se volgende volledige skaapskeerkursus sal voorlopig van 19 tot 23 Julie by Tomis Abattoir plaasvind. Leerders sal daar 'n internasionaal geakkrediteerde sertifikaat kan ontvang indien hul die kursus slaag.

Leerders oefen hoe om 'n skaap ordentlik te skeer.

Weskus Makelaars BK

Betrekking

Makelaars Onderskrywings Klerk ~ Korttermyn

Kwalifikasies: Graad 12
Rekenaarvaardig en nodige versekeringskwalifikasie en/of toepaslike naskoolse kwalifikasie

Verdere vereistes: Tweektalig (Afrikaans en Engels)

Sleutelpligte: Administratiewe ondersteuning van Makelaars

Standplaas: Weskus Makelaars Vredendal

Salaris: Bogemiddelde onderhandelbare pakket

Sluitingsdatum: 26 April 2021

Volledige CV's kan gestuur word aan admin@weskusmak.co.za

Indien geen terugvoering binne 14 dae na sluitingsdatum, kan u aanvaar dat u aansoek onsuksesvol was.

INVITATION TO COMMENT

NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION FOR THE CONSTRUCTION OF LIME KILNS, HAUL ROAD AND UPGRADE AN ENVIRONMENTAL MANAGEMENT PROGRAMME REPORT WITH RESPECT TO MINING ACTIVITIES ON FARM VADELANDSHCE RIETKUIL NEAR VREDENDAL, WESTERN CAPE PROVINCE
DMR Reference Number: WC 30/1/2/2/3/2/1(294) EM

Notice is hereby given for Environmental Authorisation in terms of section 24(2), 24(5), 24D and 44, read with section 47A(1)(b) of the National Environmental Management Act, 1998 (Act No. 107 of 1998) **Cape Lime (Pty) Ltd**, a subsidiary of Afrimat Limited proposes to construct Lime Kilns, a haul road, and upgrade an existing Environmental Management Programme report with respect to mining activities on Farm Vadelandshce Rietkuil near Vredendal, Western Cape Province. Cape Lime has been awarded a mining Right for the mining limestone and dolomite on the above mentioned property by the Department of Mineral Resources (DMR) in terms of Section 22 of the Mineral and Petroleum Resources Development Act 2002.

In terms of Sections 24(2) and 24D of the National Environmental Management Act (Act No.107 of 1998), as amended, and as read on Listing Notice 2 (Government Notices R. 984 in Government Gazette 38282 of 4 Dec 2014) a Scoping and EIA is required for the project as per the following listed activities:

GN and Listing Notice	Activity No.	Listed Activity	Description of each listed activity as per project description
GN R 983, Listing Notice 1, the EIA Regulations, 2014 (as amended)	22	The decommissioning of any activity requiring- (i) a closure certificate in terms of section 43 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002)	Replacement of topsoil over mined-out area (concurrent rehabilitation) and final rehabilitation of entire major area
GN R 983, Listing Notice 1, the EIA Regulations, 2014 (as amended)	17	Any activity including the operation of that activity which requires a mining right as contemplated in section 22 of the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002), including— (a) associated infrastructure, structures and earthworks, directly related to the extraction of a mineral resource (b) the primary processing of a mineral resource including winning, extraction, classifying, concentrating, crushing, screening or washing;	Reduction, crushing and screening of gravel material.
GN R 983, Listing Notice 1, the EIA Regulations, 2014 (as amended)	56	The widening of a road by more than 6 metres, or the lengthening of a road by more than 1 kilometre- (ii) where no reserve exists, where the existing road is wider than 8 meters;	The construction of a new haul road.
GN R 984, Listing Notice 2, the EIA Regulations, 2014 (as amended)	6	The development of facilities or infrastructure for any process or activity which requires a permit or license in terms of national or provincial legislation governing the generation of release of emissions, pollution or effluent.	The construction 2 Fluid Bed Calciners (Lime Kilns).
GN R 984, Listing Notice 2, the EIA Regulations, 2014 (as amended)	15	The clearance of an area of 20ha or more of indigenous vegetation.	The cleaning of virgin (undeveloped) land for the purposes of mining limestone deposits, erection of existing offices, processing plants and associated office facilities.
GN R 984, Listing Notice 2, the EIA Regulations, 2014 (as amended)	21	Any activity including the operation of that activity associated with the primary processing of a mineral resource including winning, reduction, extraction, classifying, concentrating, crushing, screening and washing but excluding the smelting, beneficiation, refining, calcining, or gasification of the mineral resource in which case activity 6 in this Notice applies.	Blasted material goes through a series of crushing and screening until everything is smaller than 22mm in size. Feed stock from the primary crushing plant is fed to various sections in the Mineral Fillers plant where the size of the white dolomite is progressively reduced using impact crushers, ball mills, high frequency screens and air separators. The resultant range of micro-fine products (5 microns, 15 microns, 75 microns and 300 microns).
GN R 984, Listing Notice 2, the EIA Regulations, 2014 (as amended)	28	Commencing of an activity, which requires an atmospheric emission license in terms of section 21 of the National Environmental Management: Air Quality Act, 2004 (Act No. 39 of 2004)	The construction 2 Fluid Bed Calciners (Lime Kilns).
GN R 984, Listing Notice 3, the EIA Regulations, 2014 (as amended)	4	The development of a road wider than 4 metres with a reserve less than 13,5 metres. i. Western Cape Areas outside urban areas; (aa) Areas containing indigenous vegetation.	The development of a 15m wide new road (of which 2.17km will be on Farmers Property and 3,30km will be on the applicants property) that will connect Vaderlanche and Welverdiend.
GN R 984, Listing Notice 3, the EIA Regulations, 2014 (as amended)	18	The widening of a road more than 4 metres or the lengthening of a road by more than 1 kilometre. i. Western Cape i. All areas outside urban areas; (aa) Areas containing indigenous vegetation.	The widening of the 3,49km existing road occurring on the farmer's property to connect with the proposed new road that will connect Vaderlanche and Welverdiend.

The proposed development includes the construction of 2 Fluid Bed Calciners (Lime Kilns). As such, in terms of the National Environmental Management **Air Quality Act (Act No. 39 of 2004) (NEM: AQA)** an Air Emissions License (AEL) is required. The mine abstracts water from its calcite quarry and discharges it downgradient into a valley which feeds into the Wiedou River system and eventually the Olifants River and the proposed haul road will cross a stream on a couple of sections. These activities triggers the following Section 21 water uses:

- (J) of the National Water Act (1998) that is the removing, discharging or disposing of water found underground if it is necessary for the efficient continuation of an activity or for the safety of people;
- c) Impeding or diverting the flow of water in a watercourse
(i) Altering the bed, banks, course or characteristics of a watercourse.

An application has been lodged with the Department of Water and Sanitation which is being processed. The proposed site is located ±8 km south-east of Vredendal along the R362 national road on route to Klaver. The size of the proposed site is 4002.5ha.

The Draft EIA&EMPr is available for viewing at on the following link: <https://www.afrimat.co.za/index.php/sustainability/environmental-conservation/vaderlandsche> for a period of **30 days starting from Friday 16 April 2021 to Monday 17 May 2021**. Please note the Draft report is also available on request. Interested and/or affected parties who wish to participate by contributing comments, or who would like to obtain more information, should please contact Ntsanko Ndlovu on details indicated below. The comments must please reach us by **Monday 17 May 2021**.
