NOTICE OF APPLICATION FOR ENVIRONMENTAL AUTHORISATION FOR AN EXTENSION OF ISOLIMTIC LIMESTONE MINE AND CONSTRUCTION OF LIME SLURRY PUMP BELONGING NEAR VREDENDAL, WESTERN CAPE PROVINCE
 DMR REFERENCE NUMBER: WC 8850320491/EM

INVITATION TO COMMENT

The Department of Environmental Affairs and Forestry (DEAF) is pleased to invite you to comment on the proposed extension of the Isolimtic Limestone Mine and the construction of a lime slurry pump belonging near Vredendal, Western Cape Province. The proposed extension of the mine and the construction of the lime slurry pump are detailed in the Environmental Authorisation (EA) application submitted to DEAF on 15 February 2010.

Section	Section Description	Section Description
101	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump.	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump.
102	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the surrounding environment.	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the surrounding environment.
103	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local community.	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local community.
104	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local economy.	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local economy.
105	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local culture and heritage.	The environmental impact of the proposed extension of the mine and the construction of the lime slurry pump on the local culture and heritage.

The proposed extension of the mine and the construction of the lime slurry pump are detailed in the Environmental Authorisation (EA) application submitted to DEAF on 15 February 2010. The EA application includes a detailed description of the proposed extension of the mine and the construction of the lime slurry pump, as well as a detailed description of the environmental impacts of the proposed extension of the mine and the construction of the lime slurry pump. The EA application also includes a detailed description of the proposed mitigation measures to avoid, minimize, and compensate for the environmental impacts of the proposed extension of the mine and the construction of the lime slurry pump.

The EA application is available for viewing at the Vredendal Public Library located at 37 Kerk Street, Vredendal, for a period of 30 days starting from 07 February 2010 to 07 March 2010. The EA application is also available for viewing at the Vredendal Public Library located at 37 Kerk Street, Vredendal, for a period of 30 days starting from 07 February 2010 to 07 March 2010.
