COMMENTARY

Introduction

The Group continued to deliver strong results during the financial year on the back of favourable iron ore prices, the expeditious turnaround of Nkomati Anthracite Proprietary Limited ('Nkomati'), the establishment of Jenkins mining assets and the return to pre-Covid-19 volumes in the Construction Materials and Industrial Minerals segments, all of which translated into strong operating cash flows.

The Group's strong track record of augmenting acquisitions as part of its diversification strategy, cost management and efficiency improvement initiatives enabled it to continue delivering strong growth.

Furthermore, future growth, sustainability and access to exciting new products and markets are ensured by new long-life projects such as Glenover and Gravenhage. The latter is due to contribute to the 2024 financial year. Driehoekspan and Doornpan are iron ore reserves which will come online in the future to ensure the sustainability of Afrimat's iron ore export business.

Financial results

Revenue of the Group increased by 26,7% to R4,7 billion (2021: R3,7 billion), primarily as a result of increases in volumes as well as attractive iron ore pricing translating into an operating profit increase of 25,1% from the previously reported operating profit of R886,3 million to R1,1 billion. The previously reported operating profit of R886,3 million was restated to R1,06 billion. The difference of R172,6 million was mainly as a result of a deferred tax asset raised in Nkomati, with the finalisation of the purchase price allocation. An overall operating profit margin of 23,7% was attained compared to 24,0% in the previous year.

Headline earnings per share grew by 22,9% from 441,7 cents to 542,9 cents.

Net cash from operating activities remained strong at R736,6 million, whilst the net debt:equity ratio increased from 3,8% (as previously reported) to 12,1% as a result of the acquisition of Coza Mining Proprietary Limited, the Glenover transaction, and capital funding for the Nkomati and Jenkins mining assets. If the stockpiles purchased, as part of the Glenover transaction, of R215,1 million are excluded, the cash flow generated from operations for the year amounts to R1,3 billion, translating into an increase of 27,5% compared to the prior year.

Operational review

All three segments, namely Construction Materials, Industrial Minerals and Bulk Commodities experienced strong growth compared to the previous financial year, considering the effects of the hard-lockdown levels imposed to limit the spread of Covid-19 in the first half of the prior year. The Bulk Commodities segment benefited from favourable iron ore pricing and from contributions from the new mine, Jenkins (iron ore sold in the local market). These additional volumes contributed positively to the second half of the financial year. Nkomati (anthracite also sold in the local market) was loss making for the first five months of the reporting period, but turned into a profitable business from August 2021 onwards, recovering the biggest part of the losses of the first five months.

All operating units are strategically positioned to deliver outstanding service to the Group's customers, whilst acting as an efficient hedge against volatile local business conditions. The product range is diversified, and is made up of Construction Materials (consisting of aggregates, concrete-based products and contracting operations), Industrial Minerals (consisting of limestone, dolomite and industrial sand), and Bulk Commodities (consisting of iron ore and anthracite).

The **Bulk Commodities** segment, consisting of the Demaneng and Jenkins iron ore mines, and the Nkomati anthracite mine, contributed 74,0% to the Group operating profit. The excellent performance was largely due to increased volumes from the Jenkins mine as well as favourable international iron ore pricing during the reporting year.

Post year-end, the first blast was undertaken at Driehoekspan, the iron ore asset that will replace Demaneng mine once it is mined out, which is expected to be in three years' time. Driehoekspan and Doornpan (as part of the Coza acquisition) are to be brought into production to maintain export volumes and have a combined life of mine in excess of 15 years.

With Jenkins iron ore mine successfully coming into production, the ramp up is in accordance with strategic plans and product is sold into the local market through a defined price and volume contract.

The Nkomati anthracite mine, which turned around from realising start-up losses to also contributing positively to the segment's results from August 2021, produces a high-quality product sold into the local market, as a replacement for imported anthracite, and is recognised as a consistent, reliable supplier of anthracite. The long-term sustainable life of mine plan has been enhanced through the opening of two opencast pits and work has begun on opening the underground operations.

Additional information on each mine's contribution to the Bulk Commodities segment is available in note 2.

Industrial Minerals businesses delivered returns comparable to pre-Covid-19 volumes across all regions, delivering an increase in operating profit of 70,2% from R55,5 million to R94,4 million. The acquisition of the feedlime business (Agri Lime) has strengthened Afrimat's footprint in the agricultural lime market in support of deeper diversification in this segment.

Similarly the **Construction Materials** segment also experienced a return to pre-Covid-19 volumes, resulting in a significant improvement in operating profit of 83,5% from R104,9 million to R192,5 million in the year under review. This is primarily a result of general volumes recuperating to 2019 levels, rather than a result of a rise in construction activity, as well as a strong focus on operational efficiencies.

Expansion projects

Although the acquisition of the Glenover Phosphate stockpiles are included in these results the rest of these projects are not included in this set of financial results and are in place to ensure future, seamless product diversification and sustainability.

The Glenover acquisition includes phosphate stockpiles, rare earths and a vermiculite mining right, which positions Afrimat to enter new commodities. Sales of raw phosphate have begun with these revenues being reported on in future periods. Good progress has been made on the follow up phases of this project, which positions Afrimat in specialised commodity extraction through the chemical processing of the resource.

With regard to Gravenhage, the manganese deposit, Afrimat still awaits the water use license approval which, once received, will trigger a ZAR payment equal to US\$30,0 million. Shareholders are reminded that this project is only expected to contribute to financial results in the 2024 financial year. Refer note 16 for further details.

Business development

New business development remains a key component of the Group's growth strategy. The dedicated business development team continues to successfully identify and pursue opportunities in existing markets, as well as in anticipated new high growth areas in southern Africa. The success of this division has led to the establishment of a team to focus on future minerals where a pipeline of projects and commodities is being built.

Acquisitions

Coza Mining Proprietary Limited ('Coza')

As per the SENS announcement published on 17 August 2020, the Company entered into a Sale of Shares agreement ('Coza Agreement'), in terms of which the Company agreed to purchase 100,0% of the issued ordinary shares of Coza.

On 27 June 2021, the mining right was granted for the Farm Morokwa 572 and Farm Jenkins (together 'Jenkins Mine') and the Group obtained effective management and control of the mining operations through its appointment as mining contractor in terms of the mining contractors agreement, effectively from 1 July 2021. On 14 September 2021, all conditions precedent were fulfilled and the Sale of Shares agreement became unconditional. Refer note 13.3 for further details.

B-BBEE

Existing BEE shareholders and the Afrimat BEE Trust in aggregate hold 32,6% of Afrimat's issued shares.

Notwithstanding the fully empowered ownership platform in line with the Mining Charter requirements, the Group remains dedicated to enhancing all aspects of B-BBEE on an ongoing basis. Afrimat is committed to a bottom-up approach to transformation and successfully accomplished in terms of sustained training, skills development and all-round employee upliftment in the financial year.

Dividend

The Group's dividend policy is maintained at a 2,75 times dividend cover. A final dividend of 146,0 cents per share (2021: 112,0 cents per share) for the year was declared on 18 May 2022. The net dividend payable to shareholders subject to dividend tax is 116,8 cents per share (2021: 89,6 cents per share). Total dividend for the year amounted to 186,0 cents per share (2021: 148,0 cents per share).

COMMENTARY (continued)

Employees and continued sustainability

During the financial year, good labour relations were maintained with no labour action or significant community action having occurred. The Group is committed to creating and sustaining harmonious relationships in the workplace and addressing issues proactively. Afrimat continues to prioritise staff development, training and education on the human capital agenda.

More than 500 jobs were created within Afrimat, taking total employees to over 2 500. With training and development being a critical part of the Group, a total of 10 000 training days for employees were undertaken during the financial year, supplemented by the issuance of 56 staff bursaries.

Afrimat has 45 mining rights in place and a dedicated team to liaise with the respective governing bodies including the Department of Mineral Resources and Energy, Department of Water and Sanitation and the Department of Environmental Affairs. Pleasingly three closure certificates have been received supporting the successful rehabilitation of 128 ha of land.

Work on the carbon neutrality strategy continues with extensive studies having been undertaken to determine the main detractors and once Afrimat is comfortable that carbon neutrality can be reached, it will update shareholders on the strategy and timing thereof.

Prospects

The Group is well positioned to capitalise on strategic initiatives and future opportunities. The Group's future growth will continue to be driven by the successful execution of its proven strategy, recent acquisitions and a wider product offering to the market. Many exciting opportunities are being investigated.

Planning for future growth will continue to be supported by acquisitions that conform to a unique competitive advantage depending on geographic location; unique metallurgy and structural cost advantage.

Operational efficiency initiatives aimed at expanding volumes, reducing costs and developing the required skill levels across all employees, remains a key focus in all operations.

These financial statements may contain forward-looking statements that have not been reviewed nor reported on by the Company's auditors.

Changes to Board and Board Committees

INDEPENDENT AUDITOR'S REPORT

ON THE SUMMARY CONSOLIDATED FINANCIAL STATEMENTS

To the shareholders of Afrimat Limited

Opinion

The summary consolidated financial statements of Afrimat Limited, contained in the accompanying provisional report, which comprise the summary consolidated statement of financial position as at 28 February 2022, the summary consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended, and related notes, are derived from the audited consolidated financial statements of Afrimat Limited for the year ended 28 February 2022.

In our opinion, the accompanying summary consolidated financial statements are consistent, in all material respects, with the audited consolidated financial statements, in accordance with the requirements of the JSE Limited Listings Requirements for provisional reports, as set out in note 1 to the summary consolidated financial statements, and the requirements of the Companies Act of South Africa as applicable to summary financial statements.

Summary Consolidated Financial Statements

The summary consolidated financial statements do not contain all the disclosures required by International Financial Reporting Standards and the requirements of the Companies Act of South Africa as applicable to annual financial statements. Reading the summary consolidated financial statements and the auditor's report thereon, therefore, is not a substitute for reading the audited consolidated financial statements and the auditor's report thereon.

The Audited Consolidated Financial Statements and our report thereon

We expressed an unmodified audit opinion on the audited consolidated financial statements in our report dated 18 May 2022. That report also includes communication of key audit matters. Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period.

Director's Responsibility for the Summary Consolidated Financial Statements

The directors are responsible for the preparation of the summary consolidated financial statements in accordance with the requirements of the JSE Limited Listings Requirements for provisional reports, set out in note 1 to the summary consolidated financial statements, and the requirements of the Companies Act of South Africa as applicable to summary financial statements.

Auditor's Responsibility

Our responsibility is to express an opinion on whether the summary consolidated financial statements are consistent, in all material respects, with the audited consolidated financial statements based on our procedures, which were conducted in accordance with International Standard on Auditing ('ISA') 810 (Revised), Engagements to Report on Summary Financial Statements.

NOTES

1. Basis of preparation

The summary consolidated financial statements ('financial statements') are prepared in accordance with the requirements of the JSE Limited ('JSE') Listings Requirements for provisional reports, and the requirements of the Companies Act. The Listings Requirements require provisional reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards ('IFRS') and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34: *Interim Financial Reporting*. The accounting policies applied in the preparation of the consolidated financial statements from which the summary consolidated financial statements were derived are in terms of IFRS and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements for the year ended 28 February 2021.

The financial statements have been prepared under the supervision of the Chief Financial Officer ('CFO'), PGS de Wit CA(SA).

2. Segment information

The segments of the Group have been identified by business segment. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the executive directors. Aggregation of segments has been determined on the basis of product outputs with similar attributes; by considering the nature of products and services, production processes and the type of class of customer for the products and services.

There are three main operational segments based on the market use of products.

The principal services and products of each of these segments are as follows:

- Construction Materials: Comprises aggregates, concrete-based products and contracting operations;
- Industrial Minerals: Comprises limestone, dolomite and industrial sand;
- Bulk Commodities: Comprises iron ore and anthracite; and
- Services: Comprises Group shared services including IT services, consulting services, etc.

In December 2021, the Group acquired a R500,0 million revolving credit facility with Standard Bank of South Africa ('SBSA') and ABSA Group Limited ('ABSA'). An amount of R350,0 million was utilised as at 28 February 2022. The loan bears interest linked to the three-month Jibar overnight deposit rate plus 1,7% payable within three months from date of utilisation of the facility.

10. Borrowings (continued)

10.2 Analysis as per Statement of Cash Flows (continued)

In the prior year, the Group acquired a R300,0 million five-year term facility with SBSA and Rand Merchant Bank ('RMB'). An amount of R220,0 million was utilised on 19 February 2021. The loan bore interest linked to the three-month Jibar overnight deposit rate plus 2,25%. The loan has been repaid.

In the current year, the Group renewed its \$4,0 million revolving credit facility for a further 18 months, of which \$1,7 million (2021: \$3,9 million) was drawn, with Standard Bank (Mauritius) Limited. The facility bears interest at Libor plus 2,6% (2021: Libor plus 2,6%) payable quarterly and is available until February 2023.

Other*	100 627	52 774
Total trade and other receivables	793 343	695 936

* The increase relates to value-added taxation balance of R44 million receivable by the Group.

The provision for final price adjustment relates to the customer in Afrimat Iron Ore Proprietary Limited (previously Afrimat Demaneng Proprietary Limited), Kumba International Trading S.A.R.L. ('Kumba'). In terms of the agreement, commodity prices used in the invoice issued at revenue recognition date (i.e. the designated point of delivery (FOB)) are based on the average daily prices with reference to the IODEX for the prior month. A final price adjustment is made, three months following revenue recognition based on the average market price of the third-month period.

The amount of revenue recognised is based on the best estimate of the amount expected to be received and therefore a monthly provision for the final price adjustment is recognised, based on the relevant forward looking iron ore prices.

Extract of forward looking variables applicable on 28 February 2022:

	February 2022 Three-month/ spot	January 2022 Two-month/ spot	December 2021 One-month/ spot

13. Business combinations

Acquisition of businesses

13.1 Unicorn Capital Partners Limited ('UCP')/Nkomati Anthracite Proprietary Limited ('Nkomati')

In F2020, the Group acquired 27,3% of UCP's share capital for an amount of R16,0 million. In F2021, the Group advised the market of the intention to acquire the remaining UCP shares by way of a scheme of arrangement ('Scheme') in terms of section 114 of the Companies Act, where UCP shareholders obtained one Afrimat Limited ordinary share for every 280 UCP ordinary shares disposed of, with no cash alternative. This resulted in 2 882 352 Afrimat Limited shares being issued to the value of R111,1 million.

On 15 December 2020, all conditions precedent were fulfilled and the agreement became unconditional.

During the year, the information pertaining to the fair value of the deferred tax assets and liabilities and mining assets were finalised and the following measurement period adjustments were recorded. The major part of the adjustment relates to the deferred tax asset raised of R189,9 million, after which SARS recognised the assessed loss carried forward on the Income Tax Statement of Account for the year of assessment F2021.

* Measurement period adjustment – during the current year, the comparative information for February 2021 was retrospectively adjusted to recognise:

(1) A deferred tax asset on assessed losses finalised, which resulted in a decrease in goodwill and an increase in gain on bargain purchase of R189,9 million in the process of finalising the accounting for this business combination;

(2) The issued share capital, a total of 196 429 shares to Mpumalanga Economic Growth Agency ('MEGA') previously a minority shareholder of Nkomati which decreased the gain on bargain purchase by R11,0 million; and

(3) During the measurement period, the loan receivable from UCP at acquisition date, was recognised as part of the purchase consideration.

Acquisition of businesses (continued)

13.1 Unicorn Capital Partners Limited ('UCP')/Nkomati Anthracite Proprietary Limited ('Nkomati') (continued)

The gain on bargain purchase realised in Nkomati is due to the business being bought out of business rescue and the fact that the entity was loss making at the time the acquisition occurred. The transaction is in line with the Group's diversification strategy to capitalise on new revenue opportunities for Afrimat in the Bulk Commodities space.

Property, plant and equipment

An external valuator was used in obtaining the fair value of property, plant and equipment. Comparable factors was used in the valuation methodology used by the valuator.

Mining reserves included/excluded life-of-mine ('LOM') plan

The value of all reserves (included and excluded in LOM) was valued using a discounted cash flow per LOM plan.

The long-term anthracite price used in the valuation was as follows:

Reserve	Long-term price (R/tonne)
Anthracite low ash nuts	2 067
Anthracite low ash duff	1 653
Anthracite high ash nuts	820
Anthracite high ash duff	550

The following discounted rates were used:

Class	Real discount rate
Category 1: Resources with a high level of confidence of economical extraction that had been proven through historical mining of such area or adequate drilling.	15,5%
Category 2: High risk measured and indicated resources, due to complex geological setting. Further feasibility studies are required.	18,5%
Category 3: Inferred resources and resources without regulatory approvals in place, including environmental authorisation and water use. Resources are not verified, further exploration and drilling are required to be performed.	21,5%

At acquisition, the fair value of trade and other receivables was R19,9 million and includes trade receivables of R8,2 million. An amount of R5,6 million is reflected as neither impaired nor past due.

13.2 JEF Drill and Blast Proprietary Limited ('JEF')

In the current year, the Group acquired 100,0% of the issued shares of JEF Drill and Blast Proprietary Limited, which was subsequently renamed to Afrimat Mining Services Proprietary Limited ('Afrimat Mining Services'). The transaction was done by way of a Sale of Shares agreement for a consideration of R1, as well as a cession agreement with the creditors of the company to purchase the remaining balance owing, for an additional consideration of R14,8 million.

The company was placed in business rescue effective 1 February 2021. As part of the business rescue process a business rescue plan ('Plan') was developed to which Afrimat provided the business rescue practitioner ('BRP') with its proposal to rescue the company. The Plan was approved by the requisite creditors and shareholders on 14 June 2021.

On 23 June 2021, all conditions precedent were fulfilled and the agreement became unconditional.

Details of the acquisition are as follows:

The gain on bargain purchase realised in Afrimat Mining Services is due to the business being bought out of business rescue and the fact that the entity was loss making at the time the acquisition occurred. The Group identified an opportunity to expand its contracting operations through this acquisition within the Construction Materials segment.

A deferred tax asset of R21,0 million has been raised on this acquisition. During the current year Afrimat Mining Services generated taxable income and therefore started utilising the assessed loss carried forward. The Group has concluded that the deferred tax asset will be recoverable.

Acquisition of assets

13.3 Coza Mining Proprietary Limited ('Coza')

As per the SENS announcement published on 17 August 2020, the Company entered into a Sale of Shares agreement ('Coza Agreement'), in terms of which the Company agreed to purchase 100,0% of the issued ordinary shares of Coza Mining Proprietary Limited ('Coza') ('Assets'), with operations in South Africa, for a purchase consideration of R307,6 million, subject to adjustment ('Coza Transaction').

The Group entered into a mining contractor's agreement with Coza, allowing the Group to undertake mining operations at the mine, pursuant to the grant of the mining right for Jenkins Mine. On 27 June 2021, the mining right was granted for the Jenkins Mine. Effective management and control of the mining operations through its appointment as mining contractor in terms of the mining contractor's agreement was obtained by the Group effectively from 1 July 2021. On 14 September 2021, all conditions precedent were fulfilled and the agreement became unconditional.

The purchase consideration of R307,6 million, including interest to the amount of R7,6 million, has been settled.

16. Events after reporting date

Gravenhage Manganese Mining Right

On 20 May 2021, the Company entered into an agreement with Aquila Steel (S Africa) Proprietary Limited and Rakana Consolidated Mines Proprietary Limited, in terms of which the Company will purchase 100,0% of the Gravenhage manganese mining right and associated assets for a purchase consideration of a ZAR payment equivalent to US\$45,0 million and ZAR15,0 million respectively and will be paid as follows:

- A first tranche payment in ZAR equivalent to US\$30,0 million plus a contribution amount of ZAR15,0 million relating to the purchase of the property payable on the 10th business day following fulfilment or waiver of the conditions precedent.
- A second tranche payment in ZAR equivalent to US\$15,0 million at the earlier of entry into one or more transactions with a third party which will result in Afrimat holding, directly or indirectly, less than 50,0% interest in the mining right; and 12 months after the date on which manganese ore or iron ore (excluding any discard material pertaining to such ore) recovered from the mining area is delivered to the product stockpile containing such types of ore, a facility for processing or any location outside of the mining area.

The Acquisition is subject to the fulfilment of the following outstanding conditions precedent (**Conditions Precedent**):

- Grant of Water Use Licence application.

The Conditions Precedent must be fulfilled by no later than 15 calendar months after the signature date, being 20 August 2022. At the date of publication of the audited consolidated results, the acquisition date fair values of acquired net assets have not yet been determined.

Glenover

As per the SENS announcement on 9 December 2021, the Company entered into:

- (a) A Sale of Assets agreement ('Sale of Assets Agreement') with Glenover Phosphate Proprietary Limited ('Glenover').

In terms of which the Company agreed to acquire (either itself or via a nominated subsidiary) from Glenover certain assets including principally the right to mine the vermiculite deposit ('Vermiculite Mining Right') and certain deposits of phosphate rock located at the Glenover Mine ('Inventory Deposits'), owned by Glenover (the 'Sale Assets'), for a purchase consideration of R250,0 million settled as follows:

- R215,1 million shall be settled in cash; and
- R34,9 million shall, at the election of Glenover, be settled in cash or issuing of shares in the issued share capital of Afrimat ('Afrimat Shares') to Glenover, which, in the case of the latter, shall be settled based on the 30-day volume weighted average price at which Afrimat Shares traded on the JSE on the Vermiculite Mining Right Effective Date.

At year-end there were no outstanding suspensive conditions in respect of the sale of the Inventory Deposits which have already been included in the F2022 results. Subsequently, the Vermiculite Outstanding Conditions have been fulfilled and the R34,9 million was settled in cash in March 2022.

- (b) A Sale of Shares agreement ('Sale of Shares Agreement') with Ferminore Proprietary Limited, Galileo Resources South Africa Proprietary Limited, Galagen Proprietary Limited (collectively, the 'Shareholders') and Glenover, in terms of which Afrimat has the option ('Option'), in its discretion, to purchase 100,0% of the issued ordinary shares in Glenover ('Sale Shares') from the Shareholders together with all claims that the Shareholders may have against the Company ('Sale Claims'), for a purchase consideration of R300,0 million settled as follows:

- 50% of the Sale Shares Purchase Consideration shall, at the election of Afrimat, be split between a cash payment and the issuing of Afrimat Shares to the Shareholders; and
- 50% of the Sale Shares Purchase Consideration shall, at the election of the Shareholders, be split between a cash payment and the issuing of Afrimat Shares to the Shareholders.

The Sale of Shares Agreement is subject to the fulfilment of the following outstanding conditions precedent (**Conditions Precedent**):

- Approval in terms of section 11 of the Mineral and Petroleum Resources Development Act No. 28 of 2002; and
- Afrimat has, in its sole discretion, exercised the Option by 15 June 2022 or, if an extension has been granted, by 10 November 2022.

16. Events after reporting date (continued)

Agri Lime

On 12 November 2021, Afrimat entered into an agreement to acquire 100,0% of the shares in Agri Lime Proprietary Limited; 74,0% of the shares in Stony Lime Proprietary Limited and the Kalaka mining right from Kalaka Mining Proprietary Limited (collectively 'Agri Lime') for a purchase consideration of R68,0 million. The opencast mine and plant is located close to the town of Northam in Limpopo.

All conditions precedent have been met subsequent to year-end and the acquisition will be effective from 13 May 2022.

Provisional details of the acquisition are as follows:

	Unaudited Total 2023 R'000
Carrying amount/fair value of net assets acquired – Agri Lime	
Property, plant and equipment	64 580
Current tax receivable	2 814
Trade and other receivables	9 650
Borrowings	(6 273)
Deferred tax liability	(2 677)
Trade and other payables	(15 016)
Cash and cash equivalents	9 253
Net assets – Agri Lime	62 331
Less: Non-controlling interests	(964)
Goodwill	6 633
Total net assets acquired	68 000
Cash paid	63 000
Contingent consideration	5 000
Total purchase consideration	68 000

The goodwill acquired in Agri Lime is attributable to the feedlime and agrilime resources, which is expected to expand the Group's current national footprint as well as include diversity with the access to minerals that will expand the product offering within the Industrial Minerals segment.

Contingent consideration:

A contingent consideration of R5,0 million is payable to the former owners of the Kalaka mining right, Kalaka Mining Proprietary Limited on condition that:

- the Section 102 Application is granted within 3 years from the date of the execution of the Notarial Deed of Cession; and
- the proof of the Reserve is provided by the Group to the former owners no later than 1 year from date on which the Section 102 Application is granted.

Acquisition-related costs:

Acquisition-related costs of R1,0 million has been included in 'operating expenses' in the Statement of Profit or Loss in the reporting period ending 28 February 2022.

Non-controlling interest:

The Group had chosen to recognise the non-controlling interest at its proportionate share.

Information not disclosed as not yet available:

At the time the financial statements were authorised for issue, the Group had not yet completed the accounting for the acquisition of Agri Lime as the conditions precedent were not yet met. In particular, the fair values of the assets and liabilities disclosed above have only been determined provisionally and have not yet been accounted for in the 2022 financial year.

16. Events after reporting date (continued)

Russian invasion

The Russian invasion into Ukraine is likely to have a devastating impact on the Global growth if the war continues to escalate. It is highly likely to filtrate into the South African economy too. At this stage, management are of the opinion that it is too early to assess the potential impact on the Group, due to the extent of the uncertainties that exist. Management is continuously assessing and monitoring developments of the war.

KwaZulu-Natal ('KZN') flooding

During April 2022, days of heavy rain across KZN has led to severe flooding in the region. The Group's Scottburgh operation was affected, which resulted in the pit being flooded. At this stage, there has been no material damage to any of the plants and insurance is in place for all assets. Operations are unaffected and continuing as normal.

17. Going concern

Covid-19

The impact of the Covid-19 pandemic has been considered up to 28 February 2022. The pandemic is considered to be an ongoing event and management is continuously assessing and monitoring developments with regard to the pandemic and its impact on the business.

Subsequent to year-end there have been no significant changes in the Covid-19 restrictions impacting the Group and therefore no subsequent events related to the Covid-19 pandemic have occurred. Furthermore, no other material events which occurred after the reporting date and up to date of this report.

KwaZulu-Natal ('KZN') riots

In July 2021, dramatic and violent scenes of unrest and looting unfolded in KZN and Gauteng. The KZN and Gauteng operations of the Group experienced minimal impact from these riots.

18. Contingencies

Guarantees to the value of R65,5 million (2021: R69,7 million) were supplied by SBSA to various parties, including the Department of Mineral Resources and Energy ('DMRE') and Eskom.

Guarantees to the value of R39,0 million (2021: R220,1 million) were supplied by FNB to various parties, including the DMRE and Eskom. The decrease in the amount mainly relates to the guarantee of R181,1 million previously obtained for the Coza acquisition, which has been released during the current year.

Guarantees to the value of R0,9 million (2021: R0,9 million) by ABSA Bank Limited, R249,4 million (2021: R181,5 million) by Centriq Insurance Innovation and R2,7 million (2021: R2,7 million) by SIG Guarantee Acceptances Proprietary Limited were supplied to various parties, including the DMRE, Eskom and Chevron South Africa Proprietary Limited. The value of Centriq guarantees has increased due to the acquisition of Coza Mining Proprietary Limited.

A guarantee to the value of R94,8 million was supplied by Guardrisk to the DMRE. This guarantee relates to the environmental rehabilitation costs for Nkomati Anthracite Proprietary Limited.

The majority of these guarantees are in respect of environmental rehabilitation costs and will only be payable in the event of default by the Group.

A contingent liability exists due to the uncertain timing of cash flows with regards to future local economic development ('LED') commitments made to the DMRE in respect of companies with mining rights. These commitments are dependent on the realisation of the future agreed upon LED projects. Future commitments amount to R14,4 million (2021: R15,1 million). An accrual has been raised in respect of commitments made up to the end of the year.

The Company received notice on 31 March 2017 from the Competition Commissioner that it had referred a complaint to the Competition Tribunal, alleging that the Company, through its wholly owned subsidiary, Clinker Supplies Proprietary Limited ('Clinker'), had engaged in an abuse of dominance by allegedly charging excessive prices. After taking legal advice and considering the complaint, the Company is of the opinion that there is no merit to the complaint and will therefore vigorously defend itself before the Competition Tribunal. The Competition Commission is ordering an administrative penalty equal to 10% of affected turnover for F2016 which equates to R16,3 million. The Company still awaits a final hearing date to be set by the Tribunal.
